

## Oak Ridges Moraine Conformity

### Project:

Conformity Exercise

### Client:

Municipalities of East Gwillimbury, Uxbridge and Whitchurch-Stouffville

### The Opportunity:

Update planning documents to conform with the Oak Ridge Moraine Conservation Plan.

### MSH Genuine Results

MSH was retained by the municipalities of East Gwillimbury, Uxbridge, and Whitchurch-Stouffville to bring their respective planning documents; Official Plan, Secondary Plans, and Zoning By-Laws (East Gwillimbury and Uxbridge only) into conformity with the Oak Ridges Moraine Conservation Plan as required by the Government of Ontario. In fact, the Town of East Gwillimbury was partially funded by the Province as a “model” for municipal conformity exercises.

As each municipality is unique, solutions were specifically tailored to fit their individual circumstances and experiences. The resultant policies are such that in areas of the Moraine where development is permitted, the approval process has been streamlined, limiting the amount of “red tape” as much as possible.
