MSH Genuine Results

The Town of Milton is growing rapidly. The Town retained MSH and a team of specialist consultants to carry out a comprehensive review of Milton's employment lands, including an assessment of current and future land needs. The review is designed to ensure

that the Town has a supply of designated employment lands sufficient to meet Provincial, Regional and local employment growth objectives.

As part of the review, the study also includes an evaluation of the Town's current retail/commercial hierarchy to ensure that the Town has planned for and is positioned to accommodate projected retail/commercial growth to 2031. The findings and recommendations of the study are designed to establish a strategic vision and direction for the Town's employment and retail/commercial lands, which provides a basis for the Town's Official Plan policy framework
